

A three-day course on
Leading Innovation
May 29-30 and June 14, 2018

Purpose

The main objective of this interactive learning and thought-provoking program is to acquire hands on knowledge and skills in the field of innovation. After this course you will have the knowledge and skills needed to coordinate the design, implementation and management of an 'innovation initiative', either for a whole organization or for one unit within a larger corporation.

Why?

- Do you need to boost your organization's innovation performance?
- Do you suspect that your organization hasn't the capabilities now to fully exploit innovation as a primary tool for building a strong and sustainable position in the new business landscape?
- Do you have a nagging feeling that a certain lack of innovation leadership capabilities currently might be the most important bottleneck for progress in this area?

If you answered yes to anyone of the questions above, this course is designed for you. The Leading Innovation program gives you an overview of what it takes to establish and manage a sustainable 'innovation initiative' in your organization.

How?

2 + 1 days, two weeks apart ,
total 30 hrs of which 24 hrs
classroom and 6 hrs
independent studies

Lectures in combination with
breakout sessions; to anchor
the message into the
participants own realities.
