Executive Program in Industrial Management 2020

The know-how, perspectives and inspiration to excel as managers and specialists in senior positions

The 20th round starts on August 25
Why join now?
Developing and implementing new businesses, new strategies and new ways to operate has never been so challenging and never so potentially rewarding, as it is in the transforming business landscape we now have. A business landscape transformed by:

- **Digital technologies** exponentially impacting the way we do business
- **Stagnant** economic growth
- **Nationalistic agendas and geopolitical tensions** with new risks and opportunities
- **Global environmental challenges** altering customer behavior and drive new regulations

For what kind of companies?
This program primarily targets industrial companies. Examples of previously participating companies: ABB, Atlas Copco, BAE Systems, Boliden, CEJN, DeLaval, Electrolux, ELEKTA, Flir Systems, Ovako, SAAB, Scania, Siemens, SSAB and VBG.

Who are the participants?
The participants are managers and specialists in senior positions.
Our qualification process aims to secure quality of interaction among participants.
We also intend to achieve diversity in respect of gender, nationality and functional role.

The faculty
The participants meet a broad selection of top lecturers from academia and business.

A selection of our lecturers in recent programs:

- **Anders Birgersson**
  President and CEO, VBG Group
- **Bengt Engström**
  Industrial Business Advisor, Board Professional
- **Hans Holmström**
  CEO, Siemens Industrial Turbomachinery AB
- **Henrik Henriksson**
  President and CEO, Scania
- **Jan Brockmann**
  COO and Executive VP, AB Electrolux
- **Lena Sellgren**
  Chief Economist & Head of Research, Business Sweden
- **Michael Gates**
  Associate Fellow of Said Business School, Oxford
- **Mette Godsk Jensen**
  Implement Consulting Group
- **Monica Bellgran**
  Professor Industrial Production Management, KTH
- **Viktoria Wadman**
  Head of Business Excellence, SAAB

Themes in the curriculum

- Business environment and strategy
- Technology shifts and change of technology
- Customer value-driven business development and sales
- Value-driven innovation and R&D
- Global sourcing and production
- Leading and communicating change in an international business
- Personal plan and commitments

“In focus The know-how, perspectives and inspiration required to excel in new businesses, new strategies and new ways to operate.”

Suzana Martin
Head of Engine Workshop, Scania Latin America LTDA.
**Integrated in the themes**

- **Digitalisation** – driven by that it has never been so cheap to collect, transmit, store, compute and analyse data as it is today.
- **Applications of digitalisation** – on various levels in the technology stack: 5G, sensors, Data Analytics, AI, 3-D printing, Blockchain, new business models, servitisation, platforms and ecosystems.
- **Sustainability** – in everything we do

**Approach and practicalities**

**Application and admission**

To apply, please visit [kthexecutiveschool.se](http://kthexecutiveschool.se). The participant’s employer must authorise the application. The number of participants is limited. In the admission process KTH Executive School considers the applicant’s professional background as well as an adequate configuration of the group.

**An effective learning location**

The program takes place at KTH, Royal Institute of Technology, Stockholm. Common accommodations provided in the vicinity.

---

The Executive Program in Industrial Management provided valuable insight into strategic management. This has been put to good use ever since. The intensive format and interactive elements provide a solid platform for learning. The content was varied and stimulating enabling all participants to contribute. As an Englishman working for a Swedish company, I found the cultural elements very helpful and the energy of the faculty at KTH a real eye opener.”

**Bill Wilkinson**,  
Managing Director, Camfil UK LTD

The Executive Program in Industrial Management has really been useful to me! Not just because of the very relevant content, but also due to the combination of high academic level and industrial reality. The large number of executive lecturers and the rewarding exchange with other participants has also been a key value for me. Apply for this program!”

**Hans Holmström**,  
CEO, Siemens Industrial Turbomachinery AB
