Executive Program in Industrial Management 2020

The know-how, perspectives and inspiration to excel as leaders and specialists in senior positions

*The 20th round starts on 25 August*
Why join now?
Developing and implementing new businesses, new strategies and new ways to operate has never been so challenging and never so potentially rewarding, as it is in the transforming business landscape we now have. A business landscape transformed by:

• Digital technologies exponentially impacting the way we do business
• Stagnant economic growth
• Nationalistic agendas and geopolitical tensions with new risks and opportunities
• Global environmental challenges altering customer behavior and driving new regulations

For what kind of companies?
This program primarily targets industrial companies. Examples of previously participating companies: ABB, Atlas Copco, BAE Systems, Boliden, CEJN, DeLaval, Electrolux, ELEKTA, Flir Systems, Ovako, Scania, Siemens, SSAB and VBG.

Who are the participants?
The participants are leaders and specialists in senior positions.
Our qualification process aims to secure quality of interaction among participants.
We also strive to achieve diversity in respect of gender, nationality and functional role.

The faculty
The participants meet a broad selection of top lecturers from academia and business.

A selection of our lecturers in recent programs:
• Anders Birgersson
  President and CEO, VBG Group
• Bengt Engström
  Industrial Business Advisor, Board Professional
• Hans Holmström
  CEO, Siemens Industrial Turbomachinery AB
• Henrik Henriksson
  President and CEO, Scania
• Jan Brockmann
  COO and Executive VP, AB Electrolux
• Lena Sellgren
  Chief Economist & Head of Research, Business Sweden
• Michael Gates
  Associate Fellow of Said Business School, Oxford
• Mette Godsk Jensen
  Implement Consulting Group
• Monica Bellgran
  Professor Industrial Production Management, KTH
• Viktoria Wadman
  Head of Business Excellence, SAAB

Themes in the curriculum
• Business environment and strategy
• Technology shifts and change of technology
• Customer value-driven business development and sales
• Value-driven innovation and R&D
• Global sourcing and production
• Leading and communicating change in an international business
• Personal plan and commitments

“The Executive Program in Industrial Management is really useful. Different topics all connected and with great interaction between them, appropriate to the strategic leadership thinking. The fact that we always had theory and presentation of case studies, added to discussions together in teams, expands learning and collaborates with the exchange of information between the participants of the program. The network formed between professionals from different companies and areas, which contributes to an environment leading to new ideas and learnings, is also valuable. The cultural exchange between the participants was interesting, with the possibility of sharing experiences and knowledge, which I consider a plus to the program.”

Suzana Martin
Head of Engine Workshop, Scania Latin America LTDA.
Integrated in the themes
- **Digitalisation** – driven by that it has never been so cheap to collect, transmit, store, compute and analyse data as it is today.
- **Applications of digitalisation** – on various levels in the technology stack: 5G, IoT, data analytics, Artificial Intelligence, 3-D printing, blockchain, new business models, servitisation, platforms and ecosystems.
- **Sustainability** – in everything we do

The size of the program
The content of the program is delivered over the course of 20 days. They are distributed over five modules over seven months. The group size is approx. 20 participants.

A modern learning location
The program is delivered in a combination of face-to-face meetings and digital platform activities. We have new specially designed facilities at the heart of the legendary KTH Royal Institute of Technology, Stockholm - with accommodations in the vicinity. One module will be located, if applicable, on another leading research institute abroad.

Format and practicalities

Application and admission
To apply, please visit [kthexecutiveschool.se](http://kthexecutiveschool.se). The participant’s employer must authorise the application. The number of participants is limited. In the admission process KTH Executive School considers the applicant’s professional background as well as an adequate configuration of the group.

Fee
The fee is SEK 235 000 (excl. VAT). This covers all material and literature for the program. Travelling and accommodation expenses are not included.

Format and practicalities

The Executive Program in Industrial Management provided valuable insight into strategic management. This has been put to good use ever since. The intensive format and interactive elements provide a solid platform for learning. The content was varied and stimulating enabling all participants to contribute. As an Englishman working for a Swedish company, I found the cultural elements very helpful and the energy of the faculty at KTH a real eye opener.”

**Bill Wilkinson**
Managing Director, Camfil UK LTD

The Executive Program in Industrial Management has really been useful to me! Not just because of the very relevant content, but also due to the combination of high academic level and industrial reality. The large number of executive lecturers and the rewarding exchange with other participants has also been a key value for me. Apply for this program!”

**Hans Holmström**
CEO, Siemens Industrial Turbomachinery AB
