Executive Program in Industrial Management 2020

The know-how, perspectives and inspiration to excel as leaders and specialists in senior positions

*The 20th round starts on 25 August – 13 October*
Why join now?
Developing and implementing new businesses, new strategies and new ways to operate has never been so challenging and never so potentially rewarding, as it is in the disrupted business landscape. A business landscape disrupted by:

- **Digital technologies’** accelerated impact on the way we do business
- A pandemic triggered **recession**
- **Nationalistic agendas and geopolitical tensions** with new risks and opportunities
- **Environmental challenges** altering customer behavior and driving new regulations

For what kind of companies?
This program primarily targets industrial companies. Examples of previously participating companies: ABB, Atlas Copco, BAE Systems, Boliden, CEJN, DeLaval, Electrolux, ELEKTA, Flir Systems, Ovako, Scania, Siemens, SSAB and VBG.

Who are the participants?
The participants are leaders and specialists in senior positions. Our qualification process aims to secure quality of interaction among participants. We also strive to achieve diversity in respect of gender, nationality and functional role.

The faculty
The participants meet a broad selection of top lecturers from academia and business.

A selection of our lecturers in recent programs:

- **Anders Birgersson**  
  President and CEO, VBG Group
- **Bengt Engström**  
  Industrial Business Advisor, Board Professional
- **Hans Holmström**  
  CEO, Siemens Industrial Turbomachinery AB
- **Henrik Henriksson**  
  President and CEO, Scania
- **Jan Brockmann**  
  COO and Executive VP, AB Electrolux
- **Lena Sellgren**  
  Chief Economist & Head of Research, Business Sweden
- **Michael Gates**  
  Associate Fellow of Said Business School, Oxford
- **Mette Godsk Jensen**  
  Implement Consulting Group
- **Monica Bellgran**  
  Professor Industrial Production Management, KTH
- **Viktoria Wadman**  
  Head of Business Excellence, SAAB

Themes in the curriculum

- Business environment and strategy
- Technology shifts and change of technology
- Customer value-driven business development and sales
- Value-driven innovation and R&D
- Global sourcing and production
- Leading and communicating change in an international business
- Personal plan and commitments

“In focus The know-how, perspectives and inspiration to lead new businesses, new strategies and new ways to operate

“The Executive Program in Industrial Management is really useful. Different topics all connected and with great interaction between them, appropriate to the strategic leadership thinking. The fact that we always had theory and presentation of case studies, added to discussions together in teams, expands learning and collaborates with the exchange of information between the participants of the program. The network formed between professionals from different companies and areas, which contributes to an environment leading to new ideas and learnings, is also valuable. The cultural exchange between the participants was interesting, with the possibility of sharing experiences and knowledge, which I consider a plus to the program.”

**Suzana Martin**  
**Head of Engine Workshop, Scania Latin America LTDA.**
Integrated in the themes

- **Digitalisation** – driven by the fact that it has never been so cheap to collect, transmit, store, compute and analyse data as it is today.
- **Applications of digitalisation** – on various levels in the technology stack: 5G, IoT, data analytics, Artificial Intelligence, 3-D printing, blockchain, new business models, servitization, platforms and ecosystems.
- **Sustainability** – in everything we do

The size of the program

The content of the program is delivered over the course of 20 days. They are distributed over five modules in seven months. The group size is approx. 20 participants.

Dates of modules

The Executive Program in Industrial Management provided valuable insight into strategic management. This has been put to good use ever since. The intensive format and interactive elements provide a solid platform for learning. The content was varied and stimulating enabling all participants to contribute. As an Englishman working for a Swedish company, I found the cultural elements very helpful and the energy of the faculty at KTH a real eye opener.”

Bill Wilkinson,  
Managing Director, Camfil UK LTD

The Executive Program in Industrial Management has really been useful to me! Not just because of the very relevant content, but also due to the combination of high academic level and industrial reality. The large number of executive lecturers and the rewarding exchange with other participants has also been a key value for me. Apply for this program!”

Hans Holmström  
CEO, Siemens Industrial Turbomachinery AB
